

Steps to setting up integration with Nxt Inspekt

- 1) Add Inspector's Homebase as an integrator
 - a. Navigate in Nxt Inspekt to Integration -> Partners/Affiliates
 - b. Select Inspector's Homebase (at the bottom of the page)

3) Once you've added us as an Integrator, please enter your Nxt Inspekt details and click "Verify Integration".

We'll run a few checks, then let you know if we were able to set up the integration.

Please note that the Company Name must exactly match the Company Name listed in Nxt Inspekt under Company -> Company Information

Due to API limitations, we require an email address and password to fully integrate Homebase with Nxt Inspekt. We recommend using the new Nxt user Homebase and associated email instead of using your main Nxt email address and password. Please make sure the new user you create has the first name "Homebase" with the last name "Interface", and can add/edit appointment subtasks.

In Homebase navigate to Manage -> Nxt Inspekt Integration
